**Kastraki Kalampaka, Trikala, Greece
6-8 April 2022**

– PROGRAMME –

31 March 2022

*Secretariat of the Council of Europe Landscape Convention
Directorate of Democratic Participation*

The National Symposium on the implementation of the Council of Europe Landscape Convention in Greece and Forum of the National Selections of the 6th Session of the Landscape Award of the Council of Europe are organised in Kastraki Kalampaka, Trikala, Greece, on 6-8 April 2022, by the Council of Europe – Secretariat of the Convention, Directorate of Democratic Participation –, in co-operation with the Ministry of the Environment and Energy of Greece, within the framework of the Work Programme of the Convention.

*

Introduction

As an international intergovernmental organisation created in 1949, and whose headquarters are located in Strasbourg (France), the **Council of Europe** has 46 member States. Its main objectives are to promote democracy, human rights and the rule of law, and to seek common solutions to the main problems facing society.

The **Council of Europe Landscape Convention** aims to promote landscape protection, management and planning and to organise international co-operation. It applies to the entire territory of the Parties and covers natural, rural, urban and peri-urban areas. It concerns landscapes that might be considered outstanding, as well as everyday or degraded landscapes. The Convention represents the first international treaty exclusively devoted to all the dimensions of the landscape, considered from a perspective of sustainable and harmonious development. To date, 40 States have ratified it: Andorra, Armenia, Azerbaijan, Belgium, Bosnia and Herzegovina, Bulgaria, Croatia, Cyprus, Czech Republic, Denmark, Estonia, Finland, France, Georgia, Greece, Hungary, Iceland, Ireland, Italy, Latvia, Lithuania, Luxembourg, North Macedonia, Republic of Moldova, Montenegro, Netherlands, North Macedonia, Norway, Poland, Portugal, Romania, San Marino, Serbia, Slovak Republic, Slovenia, Spain, Sweden, Switzerland, Turkey, Ukraine and the United Kingdom. One further State has signed the Convention: Malta. The Convention was adopted by the Committee of Ministers of the Council of Europe on 19 July 2000 in Strasbourg and opened for signature by the member States of the Organisation in Florence (Italy) on 20 October 2000. The opening of the Convention to non-European States following the entry into force of its amending protocol on 1st July 2021 is an opportunity to reaffirm the universality of the landscape dimension of human rights and democracy.

Organised by the Council of Europe on a regular basis since 2002, the **Meetings for the implementation of the Council of Europe Landscape Convention** aim to present new concepts and achievements in favour of the implementation of the Convention. They thus represent a genuine forum for sharing practices and ideas. Special emphasis is given to the experiences of the State hosting the meeting. The following Meetings have previously been organised:

- 23-24 May 2002, Strasbourg (France): “Landscape policies: contribution to the well-being of European citizens and to sustainable development (social, economic, cultural and ecological approaches); Landscape identification, evaluation and quality objectives, using cultural and natural resources; Awareness-raising, training and education; Innovative tools for the protection, management and planning of landscape ”

Acknowledgments

The Council of Europe wishes to thank the Ministry of Environment and Energy of Greece, and the Municipality of Trikala for their hospitality and co-operation.

Objectives

The Symposium aims to present and debate on public policies in Greece for the implementation of the Council of Europe Landscape Convention. In particular, Article 5 of the Convention provides that its Parties undertake:

- to recognise landscapes in law as an essential component of people’s surroundings, an expression of the diversity of their shared cultural and natural heritage, and a foundation of their identity;
- to establish and implement landscape policies aimed at landscape protection, management and planning, through the adoption of the specific measures set out in Article 6 of the Convention ;
- to establish procedures for the participation of the general public, local and regional authorities, and other parties with an interest in the definition and implementation of the landscape policies;
- to integrate landscape into their regional and town planning policies and in their cultural, environmental, agricultural, social and economic policies, as well as in any other policies with possible direct or indirect impact on landscape.

The Forum of the National Selections of the 6th Session of the Landscape Award of the Council of Europe aims to present the valuable experiences of the Organisation’s member states on the occasion of the 6th Session of the Council of Europe Landscape Award, in accordance with Article 11 of the Convention. These show that it is possible to promote the territorial dimension of human rights and democracy by improving the landscape features of people’s surroundings.

The results of the events will be presented to the 12th Official Council of Europe Conference on the Council of Europe Landscape Convention (2023, Palais de l’Europe, Strasbourg), and at the Meeting of the Council of Europe Steering Committee for Culture, Heritage and Landscape (CDCPP).
