IFLA Europe General Assembly and Conference 6-10 November 2019

The Jubilee 30th IFLA Europe General Assembly and CTLA Congress will take place in Antalya, Turkey 6-10 November 2019 entitled *'Landscape as a collective memory'*. The 7th CTLA Congress (6-8 November) and the General Assembly (8-10 November) are organised in cooperation with our Turkish National Association CTLA – UCTEA Chamber of Turkish Landscape Architects. For more information about the Congress and General Assembly please contact IFLA Europe Secretariat (secretariat@iflaeurope.eu).

NLA, the Norwegian Association of Landscape Architects will be hosting the **56th IFLA World Congress entitled "Common Ground" 18-20 September 2019 in Oslo, Norway**. The congress themes are: Sustainable urban transformation, Green Mobility, Beautiful and Healthy cities, Participation and Public Mission. IFLA World Congress 2019 will take a closer look at urban transformation, green mobility, healthy and beautiful landscapes and community participation. During three days in Oslo, we aim to inspire, challenge and intrigue you. We want you to share and reflect on the knowledge that is developed, presented and discussed. Join us in moving one step further to understand and protect our COMMON GROUND. Please find all the details on [Congress website](#).

News from our Sponsor: HUNTER INDUSTRIES - A GLOBAL LEADER IN IRRIGATION

In the factory, the office, and the field, Hunter puts innovation to work every day for every one of their customers around the world. HUNTER INDUSTRIES is a global, family-owned manufacturer of premier solutions for the irrigation and outdoor lighting sectors. Headquartered in San Marcos, California, since 1981, we offer thousands of products, including a complete spectrum of water- and energy-efficient solutions for residential, commercial, and agricultural applications. From rotors and valves to weather sensors and smart controllers, our philosophy is to produce products that allow landscape professionals to use as little water and energy as possible to create optimal functionality and ambience while promoting sustainable resource use. Driving our continued success is the combined energy and talents of the nearly 3,000 people on our team. Together, we create a diverse array of products that can be seen all over the world, from residential landscapes, stadiums, and national landmarks to theme parks, commercial complexes, hotels, and municipal buildings. We are committed to pushing the boundaries of technology, conservation, quality, and customer experience in every product and project we undertake. That is why our core mission will always remain the same: to deliver valued products and services backed by unwavering customer support, grow the company conscientiously, and remain true to the culture that makes our employees proud to work at Hunter.

News from our Partners

ELASA annual meeting 2019 is taking place 6-17 August in Estonia and Finland on **theme "Finest landscapes"**. The meeting, which was organised by Eesti Maastikuarhitektuuri Üliõpilaste Selts and [Aalto University](#), started in Tartu, Estonia on 6 August 2019 where ELASA members from 20 different countries cooperated with [Tartu 2024 - Euroopa kultuuripealinnaks](#) (European Capital of Culture Candidate City) to find out what landscape architecture students think about Tartu and visualise Tartu in 2024. ELASA participants will be travelling for 12 days discovering finest Estonian and Finnish landscapes. The meeting will end on 17 August in Helsinki, Finland. ELASA annual meeting 2019 is a quest to map out the threads holding together the fabric of landscape by using the tools and knowledge every landscape architect worth his or her salt should know by heart. More information about the meeting <http://emys.ee/elasa-finest>

ECLAS | UNISCAPE Conference 16-17 September 2019: Lessons from the past, visions for the future: Celebrating one hundred years of landscape architecture education in Europe, hosted by the [Norwegian University of Life Sciences](#), Campus Ås, Oslo, Norway. By reflecting on how landscape architecture education has evolved, developed and adapted to critical environmental and societal needs, and how it can go forward in facing contemporary challenges, the discipline moves to the centre of architectural and environmental discourses as the profession best equipped to make the kinds of links necessary for sustainable practice. This conference will host thought-provoking discussions, intellectual deliberations, and the sharing of cutting-edge ideas, knowledge and innovation about landscape as a core topic and the role of educators of the future generations of landscape practitioners, researchers and scholars.
