Conference Synopsis & Objectives

The series of CHANGING CITIES international conferences has started in 2013 and so far delivered 4 international conferences, always in venues with characteristic urban or/and natural landscape like the Greek Islands:

CHANGING CITIES I: Spatial, Morphological, formal and socioeconomic dimensions, 18-21 June 2013, Skiathos Island, Greece,

CHANGING CITIES II: Spatial, Design, Landscape, and socioeconomic dimensions, 22-26 June 2015, Porto Heli, Peloponnese Greece,

CHANGING CITIES III: Spatial, Design, Landscape, and socioeconomic dimensions, 26-30 June 2017, Syros Island, Greece,

CHANGING CITIES IV: Spatial, Design, Landscape, and socioeconomic dimensions, 24-29 June 2019, Chania, Crete Island, Greece,

All four conferences have been welcome by the academic community of planners and architects worldwide attracting about 300 papers and over 300 presenters from more than 50 countries -from the Balkans, Northwest Europe, USA and Canada, Latin America (Brazil, Chile, Colombia, Mexico), Middle East and North Africa, Asia, Far East (China and Japan) and Oceania (Australia, New Zealand, New Guinea). On this basis we strongly believe that the 5th Changing Cities Conference will also be an academic success.

The conference aspires to bring together urban planners and designers, spatial planners, architects, landscape designers, urban geographers, urban economists, urban sociologists and urban policy makers and investigate all together new challenges concerning cities and their future. The conference aims at becoming an international forum of transaction of ideas on changing cities.

The Conference Main Theme

“Making our Cities Resilient in times of Pandemics”

In the hope that COVID '19 pandemic will be overcome by spring 2022, the 5th Changing Cities international conference will take place in Corfu Island, 20-25 June 2022.
